

WCCS 9-12 STUDENT PICK-UP *

HS Cars will form three lines in front of the school. Students will load cars and then wait behind the cross walk (painted line) to be motioned forward to exit the parking lot. As cars in front leave, the cars behind must pull up to keep the lines moving. If you are waiting for a student who has not exited the building yet, please move forward with your line and either park to wait for your student or exit right onto India Hook Road and circle back into line. You are always welcome to enter campus and find a parking space in order to wait for your student so that the moving car line is not impeded.

Student drivers must cross traffic using the painted line at the fountain as a cross walk, and should never walk between cars.
